## SKILLS SUMMARY

---

- Programming languages: C++, Java, JavaScript, Python, MySQL, Flex, Kotlin
- Experienced in Android Development, Design Expert, Excel, and Word

## EDUCATION

---

### Bachelor of Science in Computer Science

University of Arkansas, Fayetteville, AR | GPA 3.8 | Minor: Mathematics

Expected: May 2022

## COLLEGIATE PROGRAMMING PROJECTS

---

### Tech Bar Check-in - Walmart

Nov 2021-Present

- Develop a web application to allow Walmart associates to check-in to physical Walmart Tech Bars and show the associates where they are in its queue.
- Allows Tech Bar technicians to control aspects of their own tech bar and the queue associated with it.
- Programming Languages Used: Ruby-on-Rails, React, JavaScript, HTML/CSS, PostgreSQL

### Ethereum Wallet

Sep 2021-Dec 2021

- Developed an Android application which can be used to send and receive the Ethereum cryptocurrency and view the current, weekly, monthly, and yearly price of the coin in USD.
- Programming Languages Used: Java, XML

### Document Search Engine

Sep 2021-Dec 2021

- Developed a tokenizer to tokenize 300 documents, insert them into a hash table, and create a dict, post, and map out of that.
- Then formed a web search engine that uses queries to find and display what documents have the most weight for the queries.
- Programming Languages Used: Java, C++, Flex, Jflex, HTML, PHP

## AWARDS

---

### BlackBoard's Bane – JB Hunt Hackathon – 2<sup>nd</sup> Place

April 2021

- Formed an application which goes to a student's courses homepage and scrapes data from the site to make a much more clear and accessible view of the assignments they have due and their calendar.
- This application was presented to judges and won 2<sup>nd</sup> place competing against over 20 other applications
- Programming Languages used: C#, JavaScript

## EXPERIENCE

---

### Crew Leader in Training, Little Guys Movers, Fayetteville, AR

May 2021 – Aug 2021

- Loaded and drove customers' belongings to the destination indicated by them
- Provided excellent customer service through extreme care of their belongings and a positive attitude
- Lead moving crew in loading the truck, customer interaction, and dealing with larger or more delicate items

### Doordash Delivery Driver

May 2020 – Aug 2020

- Drove delivery items from restaurants to customer homes
- Provided excellent customer service through great communication, adaptation, and efficiency

### File Clerk - Louisiana Family Medicine Clinic

May 2019 – Aug 2019

- Assisted office staff by sorting and organizing client files
- Attained specific client files for staff around the office and brought them to them
- Organized specific files and processed them for them to be given to an insurance company
